**Re: Software Migration - LogiWare**

Dear Valued Customers,

Please be advised that Empire CFS is migrating to a new software platform called LogiWare. To ensure the transition as seamless as possible, any import documents with **ETA of 08/30/2025 & after** will be entered to LogiWare platform. There will be 2 additional tabs titled "LogiWare" on our webpage pertaining to your CFS availability inquiry.

We appreciate your patience & understanding during this transition period. Should you have any questions, please do not hesitate to reach out to our team.

We value and appreciate your support.  
Empire Container Freight Station Inc.
